ABOUT US

Nachi Tekneka is a specialized engineering company serving the spinning industry with high-quality spare parts, retrofit systems, and technical solutions. From blowroom to spinning applications, we focus on delivering OEM-level quality products with precision engineering, reliable performance, affordable pricing, and faster delivery.

With deep technical expertise and practical industry experience, Nachi Tekneka develops innovative solutions that improve yarn quality, increase production efficiency, reduce maintenance, and extend machine life for spinning mills worldwide.

— Nachi SpinLyfeX™

Nachi SpinLyfeX® is our specialized retrofit and engineered solutions series designed to enhance machine performance, productivity, and service life in spinning mills. The brand represents innovative OEM-level solutions focused on reliability, efficiency, and cost-effective operation.

ISO 9001:2015 CERTIFIED

Nachi Tekneka operates under an ISO 9001:2015 certified Quality Management System, demonstrating our commitment to consistent quality, continuous improvement, customer satisfaction, and internationally recognized operational standards.

Nachi SpinLyfeX

Nachi SpinLyfeX - Servo Upgrade

Suitable to RSB 1 | 51 | 851 | 951

Nachi SpinLyfeX - Servo Upgrade Pro

Suitable to RSB D30

Nachi SpinLyfeX - Servo Upgrade Pro

Suitable to RSB D35 | D40 | D45 | D22 | D24

Nachi SpinLyfeX

Nachi SpinLyfeX - Servo Upgrade MAXX

Suitable to RSB D30 | D35 | D40 | D45 | D22 | D24

Features

- ✓ Eliminates complex differential gearbox that reduces maintenance efforts and costs such as oil changes, gear replacements, bearings, and brake pads.
- ✓ Replaces the G90 Servo drive and M90 Servomotor with a high-performance G90 AC Servo+Motion Controller and high-torque M90 AC Servomotor.
- ✓ E-Draft adjustments through HMI display, eliminating the need for NW1/NW2 gear changes.
- ✓ The plug-and-play design ensures mill technicians' seamless setup.
- ✓ This system preserves the originality of the machine.

Nachi SpinLyfeX

Inverter Upgrade

Features

- ✓ Nachi PROTOcon helps originality unchanged
- ✓ New AC drives are robust and durable
- ✓ Significantly longer life
- ✓ The electrical wirings made easy to setup
- ✓ Installation can be done by mill technician
- ✓ Easy installation helps rapid commencement of production
- ✓ Repairing of AC drives can be done any local authorized repairing center

Nachi SpinLyfeX

Nachi SpinLyfeX™ - Carding Auto Leveler

Suitable to DK 715 | DK 740 | DK 760 | DK 780 | DK 800 | DK 803 | DK 903

Advantages

- ✓ Hank Variation% between -0.04 to +0.04.
- ✓ Expected 5m CV less than 2.5%.
- ✓ Expected U% between 3% to 5%.
- ✓ Electrical maintenance cost can be reduced by 20%.

Features

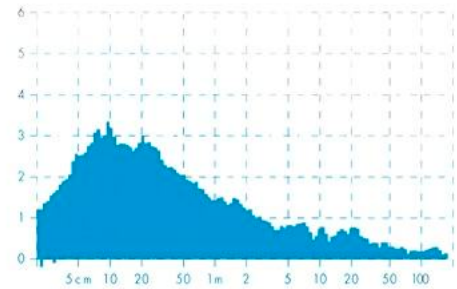

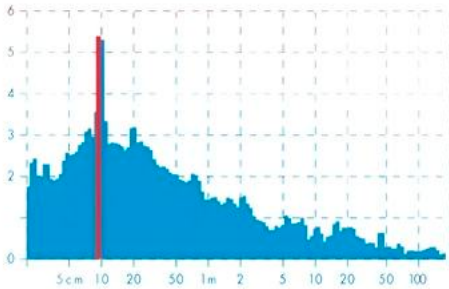

- ✓ Closed Loop Feedback Control.
- ✓ Feedback from Output through Autoleveling Sensor.
- ✓ The Desired Quality Can be Achieved.

Retrofit System - Various Machines

Nachi SpinLyfeX

On Site Services

Nachi SpinLyfeX™ - Draw Frame Technical Audit

- ✓ Comprehensive mechanical condition assessment
- ✓ Auto-leveler system audit & precision calibration
- ✓ Quality monitoring system verification & validation
- ✓ Process optimization for improved sliver uniformity
- ✓ Identification of weak & failed components
- ✓ Detailed technical report with prioritized action plan

Nachi SpinLyfeX™ - Comber Technical Audit

- ✓ Nipper, detaching & drafting system performance analysis
- ✓ Noil extraction & combing quality verification
- ✓ Sliver evenness & quality performance evaluation
- ✓ Identification of mechanical wear & running issues
- ✓ Process optimization for better cleaning efficiency & production stability.

Nachi SpinLyfeX™ - Ring & Compact Frame Technical Audit

- ✓ Expert onsite top arm rebuild & maintenance services
- ✓ Auto doffer maintenance kit installation & optimization
- ✓ Reduction of end breakage & maintenance downtime
- ✓ Machine condition assessment for reliable production
- ✓ Practical technical support by experienced service team
